Self taught Web developer with ability to learn and collaborate in rapidly changing environments and compositions. Worked through **1000+ hours** of bootcamp structure, learning **React.js, jQuery, JavaScript, and Figma**. Eager to tackle web development/design challenges to achieve lasting impacts on user experience.

Projects

1.React Blog Website

The features are :-

- Fetching blogs from a local JSON server and displaying the blogs in list form.
- Fetching details about individual blogs and displaying them.
- Adding new blogs.
- Deleting blogs.

Technology:- React Sass HTML

later on, I plan to add a backend(**Node.js**) to this project to make it full-stack.

2.E-commerce Website

The features are :-

- Easy scanning and selecting items in a list.
- Effective categorical organization of products.
- Shopping cart.
- Simple navigation from home page to information and order links for specific products.

Technology:- React Sass HTML

3.Personal Portfolio

Technologies :- React Javascript Sass CSS HTML

Tools :- Figma and Canva
